Summary

- There are grant funding opportunities which come and go - but limited
- Fewer opportunities if run by local authority
- Need diverse sources of income
- Financial sustainability
- Use the space creatively to allow other groups to apply for funding
- Nurture the entrepreneurs
- Have a pool of people with the skills you need

Where to look for Funders

Suggestions in pack as starter for 10 – but new ones come up all the time

#NotWithoutMe programme, Carnegie UK Trust

- Funding 3 projects through digital inclusion accelerator
- Runs July - Dec 2018
- £3,000 development funding
- 6 workshops with sector experts to support design and build of projects
- Organisations with experience of working with vulnerable young people
- Applications close 5pm, 30 April 2018

Where to look for Funders

Suggestions in pack as starter for 10

We're focusing on 'other funders' but don't overlook Arts Council England - possibly first port of call

European Regional Development Fund (ERDF) and European Social Fund (ESF) - engage with LA Economic Development Teams and Local Enterprise Partnerships

www.fundingcentral.org.uk - guide to 4,000+ grants, contracts, loans

www.fundraising.co.uk - fundraising news, ideas and inspirations

www.dsc.org.uk - good site for ideas and resources

Can be long haul searching for funders. Ask others for advice - might save you lots of time!

Practical Exercise 2: Where are you going to look for support?

Feedback:
What did you learn
from exercise 2?

Step 3:
Getting the money:
maximising the
chances of success

Step 3: Getting the money: maximising the chance of success

Debbie Lamb, Locality

When applying think about

Before you start:

- Are you eligible and meet criteria? - governance
- What are you seeking funding for, why is it needed, evidence?
- Does the funding fit with your mission?
- Who can help?

- Have you got a good robust and accessible business plan with budgets?
- Is your project fully costed - explain your workings
- Are you credible? Don't forget the basics
 - policies, procedures, annual accounts

- Read the guidance - research - two-thirds don't
- Answer the questions and think why are they asking - what do they want to know?
- Demonstrate you meet key criteria
- Allow enough time and resource - allow to blossom, others to check over

Think like a Funder

- Will your app help them to achieve their mission?
- Are you a safe pair of hands?
- Being a registered charity is not enough - say what makes your organisation special and prove it
- Make it stand out - make it exciting, innovative, reaching the parts that other libraries don't reach
- Community support
- Funders talk to each other, google you, check website entries, check social media

Rejection

- Understand common rejection reasons - not applying to right programme, poorly planned, not clear what money to be spent on, don't demonstrate fit with criteria

- Treat like a job application - make memorable
- Ask for what you need not what you think the funder wants to give
- Use guidance support themes - e.g. BIG have documents on: Identifying need, information checks, aims and outcomes
- Try not to take rejection personally!!!
 - think about the ratios

Summary

- Once have funding that is only the beginning.
- Take evidencing impact seriously – not just ‘bean counting’
- Provide information in a way that works for you – celebrate with staff/trustees/community, video clips
- PR campaign – become funders ‘darling’ not ‘bitch’
- Think about progression and next steps straight away
- Apply again but not relentless
- Grow and develop – the ‘new new’

Questions to consider

Why is this project important?

Who is it important to?

Who will benefit?

What difference will your project make?

How will you maintain projects in the long term?

What is your project trying to achieve?

Need to cover both:

- Why does this matter? (big picture / context)
- What are you going to do about it? (detailed activities)

Feedback from conversations with Funders

Some moving towards more strategic approach to allocating funds, hence reducing overall pot for 'one off' applications

If doesn't fit entirely with strategic approach, some only interested in funding 'innovative' one off applications

Success rate can be around 1 in 10

Very limited resource to engage with applicant communities.
Direct applicants to website guidance - read VERY CAREFULLY and check steps needed before applying (eg. creating accounts)

Not 'warm' to funding gaps created by Local Authorities stopping funding activities

Feedback from Funders on library applications

Have a very strong asset base and some good ideas

Have access to a diverse audience

Level of ambition in applications is far too low

Good ideas but have seen many of them before

Bids generally weak in marketing and audience development

Generally weak in developing partnerships for applications

Be more externally focussed (break out of 'library bubble')

Far too many applications are vastly under costed. Make sure money is enough to achieve project aims - and build in contingency

Other hints and tips

Don't assume funder knows anything about your project - tell them!

Show the fit between what you want to achieve and what the funder wants to achieve

Funder is assessing (1) whether the project is doable, and (2) whether you can do it - emphasise your experience / track record

It's ok to start with a smaller project first, then bid again to scale up

Allow plenty of time for project design - co-create with partners / users

Think about legacy and how project can become self-sustaining

If not successful first time, get feedback, amend and re-apply!

**Doesn't matter if the
funder likes the project
or not. You need to
demonstrate that
someone will like it and
want to take part**

**Do something that
excites you.
If it doesn't excite
you, it won't excite
anyone else!**

Practical Exercise 3: Bidding for resources

Feedback:
**What did you learn
from exercise 3?**

Step 4:
**How your bids will
be assessed -
a bird's eye view**

**Questions and
feedback:
What did you learn
from Step 4?**

Step 5:
You've got your
money - hooray!
What next?

Delivery, reporting and evaluation

Line up rest of your organisation

Complete the paperwork - internally and Funders

Delivery - do what you said you'd do! But prepare to be flexible

Communications and PR opportunities - regularly promote project / library service; consider Councillor media opps...

Reporting on progress - internally and to Funders; use of data

Lessons identified - review regularly: what went well, what went less well, what do differently? Learn and adapt

Evaluation - embed from the start; share widely [masterclasses]

**Questions and
feedback:
What did you learn
from Step 5?**

Wrap up and next steps

Next steps

We'll share the notes

We'll share everyone's email address

We'll do a blog on the workshops - including all speaker slides and final copies of the template, etc - once the four workshops are over (late March)
